Results-oriented full stack software engineer with 5 years experience working for a multinational company under a fast paced software development environment. Has a keen eye for design and undying interest in finding new technologies and generating exciting ideas.

`ES6` `React` `Redux` `ReactNative` **Docker** **Linux** macOS **Windows** *Agile*

Software Engineer for Nokia   May 2017 until the present

Building solutions and features to various projects and maintained testing CI pipelines. Evaluated and tested—in some cases applied—the viability of new technology, libraries, and languages to existing and new solutions.

`ES6` `React` `ANGULAR` `GitLab CI` `openstack` `Terraform` **Linux** python

Key accomplishments
1) Automated a simple CI pipeline queueing system to ensure all test runs synchronously with proper setup and cleanup while minimizing manual efforts and maximizing resources.
2) Gave talks, info sessions, and tutorials to colleagues around the subject of Web, JS, and React, among other things.

Frontend Developer for Gwill Web Services   May 2015 - March 2017

Designed UI/UI of web and mobile apps. Created mobile-first web apps with React/Redux and mobile apps with ReactNative.

`ES6` `React` `Redux` `ReactNative` **webpack** *CSS/Sass* `Sketch` `Bootstrap 3`

Key accomplishments
1) Undertook the initial re-designs for the UI/UX of Hookcoffee.com.sg[1] and initiated a fast prototype-feedback channel with the client which allowed the project to finish with time to spare.
2) Initiated the adoption of Redux to new projects, encouraging better, more powerful coding practices in React apps while producing less bugs.

Projects
1) Hookcoffee.com.sg—a coffee subscription website
2) Thefingersmithletterpress.com—a letterpress printing studio (Web)
3) Basheergraphic.com—a bookstore selling a variety of books (Web)
4) Eventspartner.com.sg—a leading furniture rental store (Web)
5) The ODBO—a beauty product company (Android, iOS, and Web)
6) Inspirit—motivational messages on your phone (Android, and iOS)

IT Support Staff for AllCard   May 2014 - September 2014

SEO Specialist for Catalink Online Solutions   October 2013 - April 2014

BS in Computer Science at Saint Louis University   batch 2013
Thesis: Guidelines for the Gamification of Learning Management System
